

About the Body of 9

Body of 9 is an innovative, body-based personality assessment system that works through exploring your posture, body type, and how you physically express yourself. This process gives you an experience of your innate self, which we call your Natural Number, and this takes your understanding of who you are to a whole new level.

Numbers tell the truth and each of us has a Natural Number, from 1 to 9, which gives us the key to who we are, how we think, react, act, and interact. The Body of 9 system reveals those innate differences between people and helps us learn to resolve them and brings us closer together. Once you know your Natural Number (and those of the people around you), you'll discover how to have more awareness of yourself, your relationships, your life, and how your communications can create deeper and more meaningful connections.

Martin & Susan Fisher are the Co-Founders and Teachers of Body of 9 and are pioneers in the study and research into the 9 Natural Numbers. With over thirty years of combined research and experience with Body of 9, their work has led to many new discoveries and a deeper understanding of the importance, power, and impact of knowing your Natural Number and learning to consciously use this aspect of your body. Since 2012, Susan and Martin Fisher have been working together to identify over 7500 people from around the world and to build and share the understanding of how the Body of 9 shows up in so many aspects of human experience.
